

KI6601

K-loop organic cotton tube bag

- Made from 100% certified organic cotton.
- K-loop collection: contributes to a circular economy.
- This product features Aware™ traceability technology.

100% organic cotton. Duffel bag with reinforced handles along the body of the bag. K-loop organic is K-loop's collection made from organic cotton. During the spinning process, tracers are added to the raw material, viscose and ceramic filaments that act like a unique fingerprint. The tracers reflect light in a unique way and therefore have a unique, unalterable code. All the information about the processes to which the yarn has been subjected will be stored in a blockchain. Thanks to Aware™ tracking technology and its blockchain platform, the end consumer can follow the entire production process. This guarantees that the product is genuinely made from organic cotton, without any possible alteration during the process. A special label with a QR code can be used to access the Aware™ platform and authenticate certifications directly.
